

# SYC PRO press release

## Copy, Click, Download: SYC PRO Lets Users Download Online Videos to Their Mac, iPhone, or iPod

August 2022 — Valley Village, California: Softorino has released the latest version of its best-selling SYC app for macOS: SYC PRO, a safe and easy Youtube downloader. SYC PRO introduces new pro features: metadata editing, macOS native design & direct-to-Android download support. With the same magical experience that lets users download YouTube videos as MP3 or MP4 to their Mac, iPhone, iPad, iPod & Apple Music/TV.app.

## What is SYC PRO?

Softorino YouTube Converter PRO is YouTube video downloader, which allows you to download any YouTube video as MP4 or MP3 directly to your Mac, iPhone , iPad or Apple Music/TV library.

The new SYC PRO is a best-in-class online video downloader with “no clutter” design. Download YouTube as MP3 or MP4 directly to iPhone, iPad, iPod, Mac or even your Android device with 6x faster download speed. Edit metadata & build a beautiful music library. Download playlists, or videos with subtitles & more.

## How Does It Work?

1. Launch SYC PRO & Connect your Apple device
2. Copy the link. SYC PRO is very smart: just copy the URL to the video and it will show up in the app automatically. SYC PRO will detect the video without any additional hassle. Just copy – no need to paste.
3. Choose the format, device/folder destinationand, & download.

## What Makes SYC PRO different?

- Direct-to-iOS transfer.

Watch any YouTube video on your iPhone offline! Apart from desktop computers, SYC PRO also can download videos directly to your Mac, iPhone, or iPod with one click.

- We support all iPhones, iPads, and legacy iPods — even the oldest ones.

Starting from the original iPod to the latest iPhone 13 Pro – Softorino YouTube Converter PRO supports all Apple devices ever created.

- No Ads & Virus

Enjoy the downloading process without any annoying advertising and stay safe from computer viruses.

## What's New In SYC PRO?

- **Built-in Metadata Editor**

Online videos usually lack the proper cover art and descriptions. With SYC PRO, you can edit metadata details, set custom artwork or have SYC download it for you to make it look beautiful.

- **Download Directly into Apple Music/TV.app**

Siri on HomePod is great—but there are times when Siri cannot access or play music that's only available on YouTube or SoundCloud. Using SYC PRO, you can download audio as MP3 or AAC directly into Apple Music. With iCloud enabled, your music will be backed up & ready to play from HomePod.

- **Android Support**

Apart from direct-to-iOS transfer, with SYC PRO, you can now have a custom Favorite folder destination for specific downloads. This means you can download youtube directly to your Android device by selecting the SD card location!

## Key Features of SYC PRO:

- **Download YouTube videos**

With SYC PRO you can download from YouTube, SoundCloud, Vimeo, Facebook, and YouTube Shorts. Just copy the link and download the file.

- **Automatic Wi-Fi Connectivity**

You don't need cable anymore. New SYC PRO recognizes every device connected to the same Wi-Fi. Simply select the preferred iPhone or iPad and start the download.

- **Edit metadata for audio and video downloads**

With SYC PRO users can easily edit cover art and descriptions for downloaded videos. Or SYC PRO automatically detects YouTube songs and fills in the proper cover art inside the iOS Music app itself.

- **4K 60FPS Support**

Apart from 4K quality, SYC PRO also supports videos with a high frame rate (30, 60fps).

- **Up to 6x faster than SYC 2**

SYC PRO becomes faster than ever before! It's a 600% download speed increase!

- **YouTube Playlist Support**

Wanna download the whole playlist? Do it in a single click!

- **Full Subtitles Support**

Now you can download videos with all subtitles, even auto-generated ones.

- **SoundCloud, Vimeo, Facebook, YouTube Shorts Support**

Download even more content from different platforms with SYC PRO.

- **Android as an option**

Apart from direct-to-iOS transfer, with SYC PRO, you can now have a custom Favorite folder destination for specific downloads. This means you can download youtube directly to your Android device by selecting the SD card location!

## What Pain Points Does SYC PRO Solve?

For more than 15 years people have been struggling with how to download videos from YouTube. It's difficult, irritating, and time-consuming. But not with SYC PRO. This app makes the process of downloading easy and fast.

And that's the reasons why:

- with Direct-to-iOS transfer, users don't need any additional action to download YouTube videos to their iPhone;
- SYC PRO allows users to edit cover art, description and other metadata;
- Users can download files to iPhone or iPad using only WI-Fi, not cables.
