

Softorino YouTube Converter 2 Product summary (+ Fact Sheet)

SYC 2 is the second iteration of famous Softorino YouTube Converter. The application downloads videos, music, ringtones to computer or to any Apple device ever created. And now it supports all of the most popular online video sources.

Using SYC 2 can't be easier. You simply copy the URL of the desired video and select the preferred destination (computer or any Apple device). SYC 2 does the rest.

SYC 2 is huge step forward. The application evolved into universal music and video downloader for iPhones & desktops. It features:

- ✓ **Universal Connection Bridge:** Each Apple device that's been released over the last 15 years is absolutely compatible. You just need to connect it and SYC 2 will recognize it.
- ✓ **Trim-less Ringtones:** This is probably the fastest way to create unique ringtones for iPhone. SYC 2 lets you turn any of 10 billion YouTube videos into special ringtone & push into the device with a SINGLE click.
- ✓ **Freedom of sources:** Apart from YouTube, users can seamlessly download music and videos from popular sources like SoundCloud, Daily Motion, Vimeo & many many more.
- ✓ **Automatic Wi-Fi:** SYC 2 instantly detects any iOS device connected to the same Wi-Fi network.

SYC 2 Fact Sheet:

- **Automatic Content Recognition:** SYC 2 automatically detects YouTube songs and fills in the proper cover art inside the iOS Music app.
- **In-app browser:** The quickest way to download and convert any YouTube video is to use the magical in-app browser. Now you simply open up SYC, search for your favorite YouTube video and download it all without leaving the app.
- **Universal Connection Bridge:** Watch any video on-the-go! Apart from desktop computers, SYC 2 supports all the iOS devices and even any iPod ever created.
- **Automatic Wi-Fi:** New SYC 2 recognizes every device connected to the same Wi-Fi. Simply select the preferred iPhone or iPad and start the download.
- **4K Ultra HD Support:** Apart from 4K quality, SYC 2 also supports videos with high frame rate (30,60fps). Even the latest trend, VR 360 videos are fully compatible.
- **Trim-less Ringtones (Exclusive):** Our hand-crafted feature lets you download any YouTube video as a ringtone and send it into your iPhone in 1 click.
- **Lightning fast speed:** SYC 2 becomes faster than ever before! The application underwent a massive 4X speed improvement.
- **Full Playlist Support:** SYC 2 comes with a full playlist support. For example, if a playlist has up to 100 videos, they all can be downloaded in a single click!
- **The Freedom of Sources:** Apart from YouTube, you now have access to convert and download videos from more than 30 websites. And more are coming!
- **iTunes Library Support:** Add any YouTube track straight to your iTunes library. Simply choose iTunes in the menu and SYC will do the rest.
- **Automatic Forced Subtitles:** SYC 2 automatically grabs the subtitles from any video. All you need to do is to enable subtitle support in the Preferences.
